

The Power of Reliability

NEWS RELEASE

ICT Appoints Jorge Marrujo as Production Manager

Langley BC, December 2, 2013 – Innovative Circuit Technology Ltd. (ICT) is pleased to announce the appointment of Mr. Jorge Marrujo to the position of Production Manager, effective immediately. Mr. Marrujo began his career in process engineering and operations planning, and moved quickly into more responsible roles in sourcing, program management, and manufacturing operations management.

Mr. Marrujo holds a Bachelor of Science degree in Industrial Engineering, and graduated with Honors from Instituto Tecnológico de Monterrey (ITESM), Mexico.

“Jorge brings a tremendous background in operations and manufacturing management”, said Tim Attridge, President. “We are extremely pleased to have Jorge join our team. He is an extremely accomplished operations professional who will be an invaluable member of our management team. Jorge’s experience will serve us extremely well as we move forward on a number of key initiatives designed to increase our manufacturing efficiencies and improve on our ability to out-perform to our customers’ expectations.”

About Innovative Circuit Technology Ltd.

Founded in 1986, ICT provides DC power conversion products for the wireless communications industry including land mobile radio, fixed wireless broadband, mobile power conversion, and site equipment power markets. Our DC power supplies, fault tolerant systems, voltage converters, battery chargers, power inverters, DC backup systems, and Ethernet-enabled intelligent power products are used in emergency response dispatch centers, on vehicles with two-way radios, and in tower and communications sites around the world.
