

## Electronics Assembler

ICT is a high technology electronics manufacturer in the Langley Aldergrove area. We specialize in the design and manufacture of power conversion products for a variety of markets including O.E.M., mobile radio, site infrastructure, and renewable energy. We have a full engineering group which enables us to design/manufacture all of our own products.

ICT requires a friendly highly energetic results oriented problem solver who will work well in a team environment.

### Job Summary:
