

The Power of Reliability

PRO SERIES

1RU DC POWER SUPPLIES High Efficiency, Energy Saving, Cost Effective

When you need a 1RU, high efficiency, energy saving DC power supply, consider Pro Series from ICT. The Pro Series is 90 to 93% efficient, with wide-ranging power factor corrected AC input and available in 12, 24 and 48 volt DC output. The ICT Pro Series delivers high performance and energy savings in a space-saving 1RU chassis with an optional battery backup terminal with integrated low voltage disconnect.

ICT Pro Series provides an ideal DC power solution for wireless communications professionals who demand cost effective, high efficiency space-saving DC power systems for LMR, broadband, and communications network equipment. The Pro Series is also ideal for industrial power applications such as security systems, transportation, process control, and DC in-building power.

- ▶ 690 or 1200 watts of output power in a 1RU rack mount chassis with 90 to 93% efficiency
- ▶ 12, 24 and 48VDC output voltage models
- ▶ Wide-ranging power factor corrected AC input
- ▶ Optional factory-installed battery backup with Low Voltage Disconnect
- ▶ Standard Form C alarm and remote shutdown contacts

12V	50A, 100A
24V	25A, 50A
48V	12.5A, 25A
