

ICT INTRODUCES NEW 19 INCH UNIVERSAL RACK MOUNT TRAYS

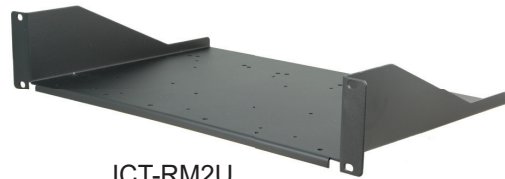

The new ICT Universal Rack Mount Trays allow a wide range of ICT power products to be mounted in a standard 19 inch 1RU or 2RU 19 inch equipment rack. ICT Rack Mount Trays are powder-coated black, and come with required fasteners.

This new, simplified approach replaces a number of previous rack mount kit model numbers, reducing the complexity and stocking requirements for our channel partners.

The new Universal Rack Mount Trays are available for ordering on June 1, 2018. Check with ICT for remaining stock of the discontinued models.

ICT-RM1U

ICT-RM2U

MIGRATION CHART

Product Family	Old Model Number	New Model Number
Comm Series Desktop DC Power Supplies ^(a)	ICT-RMK1	ICT-RM2U
